AUDIO INTELLIGENT VINYL SOLUTIONS ENZYMATIC STYLUS CLEANING KIT

AIVS Enzymatic Stylus Cleaner Formula contains no alcohol or any other ingredient that will weaken the stylus-to-cantilever adhesive bond and is supplied in a generous two ounce dropper bottle with a stylus brush with densely packed non-varnished carbon fiber bristles. This is enough cleaning fluid for up to 1000 cleanings.

DIRECTIONS FOR USE: Dispense one drop onto accompanying brush. Gently brush from back to front from behind stylus tip four to six times, taking care to brush gently. Do not brush from front to back or side to side. Never use more than one drop of this product on the brush. Brush should be carefully rinsed with purified water periodically and left to air dry.

CAUTION: KEEP OUT OF REACH OF CHILDREN. Eye and skin irritant. Contains cleaning agents (enzymes and surfactants). If product gets in eyes or on skin, rinse with water thoroughly. If irritation continues, consult a physician.
